

## SUNNYVALE EDUCATION FOUNDATION

Dear friends,

The Sunnyvale Education Foundation had an amazing year! We exist to help the schools create a better learning environment, and last year we raised nearly \$30,000 to achieve that goal. Then we did great things with that money, including providing field trip buses and sending kids to science camp, and we have some funds to work with for the new school year.

We also contribute in ways that don't require much funding as we continue to raise our visibility in the district schools. Between the School Leadership Roundtables, presenting to community organizations like Rotary and school parent/teacher organizations, and hosting parent education events like Screenagers and a discussion around children and screen time, we help parents do more on campus and build a community that stretches beyond the classroom.

The SEF board is proud to have representation from every school in the district. We believe it is important to have good relationships and lines of communication with all the campuses to reach our goal of enhancing every student's learning environment.

We have achieved much in our first few years, and we are setting even more ambitious goals for ourselves this year. We continually stretch ourselves to reach these goals, and we will continue to work hard to bring a high-quality, enriched education to all the students in Sunnyvale.

Sincerely,

Melinda Hamilton, President

## FY 2017 Facts

- Total Revenue: **\$29,500**
- Total Expenses: **\$11,100**, including **\$8,200** for **Science Camp**
- Hosted **3 Roundtable Meetings** for school leadership to share best practices across the district
- Arranged for **TB testing** at two schools, open to all parents, and over 68 potential new volunteers got their tests
- Hosted **Screenagers** parent education event
